Launch of Agri-Startup Stakeholders Connect 2025

This program brings agri-startups and key stakeholders onto a single platform to bridge information gaps, enable knowledge exchange, and create meaningful partnerships across the entrepreneurship ecosystem. It fosters a vibrant community through interactive workshops, expert-led knowledge sharing, networking opportunities, and product exhibitions—empowering founders to collaborate, learn, and showcase their innovations.

Promoting Applications for Cohort 14:
Pre-Incubation & Digital Marketing Program

AGRI INNOVATORS – EXTENDED OPPORTUNITY !

Your idea has the power to transform Indian agriculture -all it needs is the right support. This is your moment to step forward. Apply now, shape your dream, and let MANAGE-CIA help you turn innovation into real impact.

Visitor at MANAGE-CIA

Agrinnovate India Limited (a Government of India Enterprise) visited MANAGE-CIA for an insightful interaction on agri-innovation and entrepreneurship, focusing on strengthening collaboration, innovation, and support for agri-startups.

Strengthening Agri-Enterprises Through Expert Guidance
The Administrative Staff College of India hosted an Agri-Entrepreneurship Development Programme featuring an expert session by Dr. Saravanan Raj on government support for agri-startups and enterprises.

Connecting aspiring Agripreneurs to the Agri-Startup Ecosystem

MANAGE-CIA conducted outreach sessions among students, officials, and aspiring agripreneurs on agri-entrepreneurship startup opportunities, innovation, incubation, and career pathways in the agri-startup ecosystem.

World Aquaculture 2025

Team MANAGE-CIA and MANAGE FISHub proudly represented our startup ecosystem at World Aquaculture 2025, Hyderabad, showcasing our impactful work in nurturing agripreneurs and aquapreneurs through incubation, mentoring, and funding under RKVY-RAFTAAR. The event offered a remarkable opportunity to engage with global startups, companies, and organizations, opening promising pathways for collaboration and driving innovation in sustainable aquaculture.
