About the Program

MANAGE – Centre for Innovation and Agripreneurship (CIA) is a Centre of Excellence in Agribusiness Incubation hosted at the National Institute of Agricultural Extension Management (MANAGE) – Hyderabad. It is one of the leading Agribusiness Incubators in India with 158 funded and 383 incubated agri-startups. MANAGE-CIA also mentored 754 Agripreneurs from various focus areas of the Agri & Allied Sectors.

MANAGE-CIA has designed its 1st Agri-Startup Stakeholders Connect Program for fostering collaboration & partnership among vibrant community of startup founders and agribusiness stakeholders of Himachal Pradesh.

The aim of this program was to bring together all stakeholders covering researchers, incubators, policymakers, agripreneurs, startups, agro-industries, investors, extension functionaries, students and other partners from Himachal Pradesh state to present and share their innovations, views, expertise and experience on agribusiness and agripreneurship.

The program was conducted in the collaboration with **Dr. Yashwant Singh Parmar University of Horticulture and Forestry, Solan (Himachal Pradesh).** The occasion witnessed the enthusiastic participation of numerous start-ups and agriculture stakeholders from Himachal Pradesh.

Objectives of the Program

- To Facilitate connections between agripreneurs, researchers, and industry stakeholders to strengthen the agricultural innovation ecosystem in Himachal Pradesh.
- To encourage partnerships between academia and industry to address real-world challenges and explore new opportunities in agriculture.
- To provide a platform for exchanging insights, strategies, and technological advancements relevant to agricultural startups and innovations.

Participants of the Program

The program was graced by the presence of several eminent personalities from national institutions, the university, state departments, and the startup ecosystem. From the National Institute of Agricultural Extension Management (MANAGE), **Dr. Saravanan Raj**, Director (Agricultural Extension) and CEO of MANAGE-Centre for Innovation and Agripreneurship (CIA), attended the event and played a significant role in its proceedings.

The Chief Guest of the event was **Prof. Rajeshwar Singh Chandel**, Vice Chancellor of Dr. Yashwant Singh Parmar University of Horticulture and Forestry, Solan. **Dr. V.P. Sharma**, Director of ICAR–Directorate of Mushroom Research, was the Guest of Honour.

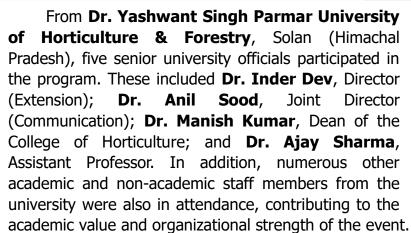

MANAGE – Centre for Innovation and Agripreneurship

The program also saw participation from several key officials representing state and national-level government institutions. Notable among them were **Dr. Arun Chandan**, Regional Director, National Medicinal Plants Board, Ministry of AYUSH; Smt. Seema Kansal, District Agriculture Officer, Department of Agriculture, Solan; Dr. Sunita Thakur, Vice Principal, SAMETI Mashobra; and **Dr. Puneet Dogra**, Training Officer, SAMETI Mashobra.

In addition to institutional representation, the event brought together 26 agri-startups from across Himachal Pradesh. These startups showcased their innovations, networked with stakeholders, and explored collaborative opportunities, highlighting the region's growing agripreneurial spirit.

Furthermore, a total of **125 students** actively participated in the program. These students included 60 students from the Horticulture program, 40 students from Forestry, and 25 students from **Agri-Business Management**. Their enthusiastic involvement underscored the educational impact and youth engagement facilitated by the event.

Inauguration of the Program

The program began with a welcome address by Dr. **Inder Dev**, Director (Extension), setting the tone for the day. **Dr. Saravanan Raj** then extended heartfelt gratitude to the Chief Guest and Guest of Honour for their presence and thanked all dignitaries, government officials, startups, and students for attending. He shared insights about the purpose

MANAGE – Centre for Innovation and Agripreneurship

of the program and the broader agri-startup ecosystem in India, encouraging everyone to contribute actively to its success.

Dr. V.P. Sharma addressed the participants, emphasizing the importance and necessity of organizing such programs to support innovation and entrepreneurship in the agricultural sector.

All the dignitaries shared their insights on the agristartup ecosystem and highlighted its crucial role in the development and transformation of Indian agriculture. Prof. Rajeshwar Singh Chandel also addressed the gathering and expressed his appreciation to MANAGE and **Dr. Saravanan Raj**, Director (Agricultural Extension), for organizing such a meaningful and impactful program.

Overview the Program

During the program, a dedicated startup presentation session was conducted, providing a platform participating agri-startups to share their innovative business ideas. Each startup presented the specific agricultural challenges they are addressing and the unique solutions they have developed to tackle these problems.

Following the presentations, interactive Q&A sessions were held, allowing participants to engage directly with the startup founders, ask insightful questions, and offer feedback or suggestions.

In addition to the presentations, the program featured a startup exhibition, where entrepreneurs showcased their products, technologies, and services aimed at solving real-world agricultural issues. This exhibition served as a dynamic networking platform, enabling startups to connect with potential collaborators, investors, government agencies, and academic institutions.

It also offered attendees an opportunity to explore innovative agri-tech solutions firsthand and engage in meaningful conversations with the innovators behind them.

MANAGE – Centre for Innovation and Agripreneurship

At the end of the program, Mr. Siddharth, Innovation Manager at MANAGE-Centre for Innovation and Agripreneurship (CIA), delivered the vote of thanks. He extended heartfelt gratitude to the Program Director, **Dr. Saravanan Raj**, for organizing such an innovative and impactful event. He also thanked all the participants for their active engagement and invaluable contributions, which played a vital role in the overall success of the program.

Key Takeaways and Benefits of the Program

- New Connections: Participants had the opportunity to meet individuals who could potentially become business partners, clients, mentors, or collaborators.
- **Learning:** Attendees gained valuable insights from industry experts and thought leaders through networking sessions, talks, and discussions.
- **Visibility:** Startups showcased their products and technologies to a relevant audience, significantly enhancing their visibility within the local business community.
- **Inspiration:** Interactions with successful entrepreneurs and hearing their journeys served as a source of inspiration and motivation for many participants.
- Feedback: Startups presented their ideas and products, receiving constructive feedback from fellow attendees and experts.
- **Collaboration:** The event facilitated the discovery of opportunities for joint ventures, partnerships, and collaborative projects aligned with the objectives of participating startups.

Explore startups in agri streams: VO

The National Institute of Agricultural Extension Management-Center for Innovation and Agripreneurship (MAN-AGE-CIA), Hyderabad, in partnership with Dr YS Parmar University of Horticulture and Nauni, organised an event titled *Agri-StartUp Stakeholders Connect - Fostering Collaboration and Partnerships at the university.

The event saw the active participation of 26 startups and agricultural stakeholders from Himachal Pradesh, along with over 200 students and faculty of the university.

Dr Inder Dev, director, extenion education, welcomed the participants and said the event aimed to uniting various stakeholders, including researchers, incubators. policymakers, start-ups, agro-

Prof Rajeshwar Singh Chandel at the exhibition in the university.

industries, investors, extension functionaries, students, and other partners from the state. It served as a platform for presenting and exchanging innovations, views, expertise and experiences in the fields of agribusiness and agripreneurship in order to collectively contribute to the growth of the

startup landscape.

Vice-Chancellor (VC) and chief guest of the event Prof Rajeshwar Singh Chandel highlighted the global interest in activities beyond the farm gate. He encouraged agriculture, horticulture and forestry graduates to explore startup opportunities

Chandel acknowledged the evolving support system for startups, emphasising the importance of utilising the favourable startup environment to transform novel ideas into profitable ventures. He said the university would look to invite agri startups from different regions of the state. Besides there would be scientific advisory committee meetings to foster collaboration between start ups and the university's research stations and Krishi Vigyan Kendras. He also suggested utilising doctoral scholars to validate the work done by the startups and generate scientific data.

The event featured an exhibition where 26 tups shared stories and showcased their products. - TNS
