## Krishi Vikas - Search for Agri Innovations

“Krishi Vikas - Search for Agri Innovations” is a national level accelerator program focusing on innovation, facilitating funding, mentorship, office space, and access to a network of investors and venture capitalists for up to 100 selected startups per year. The one year program provides the selected agri-startups with the opportunity of collaborating with mentors, partners and investors to build world-class products and services that will make a positive change in the agriculture community. MANAGE AC&BC Incubation Centre will facilitate the hands-on help and a great co-working location with an expert team to positively impact the growth of new ideas and early-stage startups.

### MANAGE AC&BC Incubation Centre

MANAGE AC&BC Incubation Centre brings a wealth of expertise, mentoring opportunities and market access that will be beneficial for agri-startups and help passionate entrepreneurs take their projects and ventures to the next level. MANAGE partners are grassroots organizations, national institutions, universities, state governments and NGOs.

### What the program offers?

One year program is designed to accelerate Agri Startups and will provide the following;

- All the basics on how to establish and setup agri-business
- Access to funding towards the development of product or innovation
- Agri-business training and mentoring from established entrepreneurs and business experts
- Access to investor groups
- Opportunity to identify and obtain additional resources to scale-up the startups

### Who should apply?

- Youth with innovative ideas in Agriculture and allied sectors
- An early stage startup
- Innovations trying to refine a scalable and sustainable business model
- Willing to build and test a product/ service for key markets
- Preparing for scale or fundraising
- Looking for access into a network of mentors and channel partners

## When and where will it happen?
