

“FTF ITT Program aims at creating impact at farmer's field through Executives trained. Back at Work Plan is an effective tool to create the impact. These programs not only transfer new technologies, innovations and extension methodologies to partner Countries, but also strengthen relationship between all stakeholders”.

**V. Usha Rani, IAS,**  
Director General, MANAGE

Feed The Future India Triangular Training (FTF ITT) is a collaborative program of United States of America represented by USAID, India and Government of India represented by National Institute of Agricultural Extension Management (MANAGE). FTF ITT aims at building the capacity of Public and Private Functionaries in Agriculture and Allied sectors of 17 Partner Asian and African Countries in emerging areas of Agriculture Development relevant to their respective countries. The relevancy was identified and prioritized based on Demand Analysis carried out by MANAGE.

**African Countries** – Botswana, DR Congo, Ghana, Kenya, Liberia, Malawi, Mozambique, Rwanda, Sudan, Tanzania and Uganda.

**Asian Countries** – Afghanistan, Cambodia, Lao PDR, Mongolia, Myanmar and Vietnam.

Partner Institutions are identified and selected based on their expertise, experience, infrastructure facilities available etc. MANAGE partner with National organizations, International Organizations, Indian Council of Agricultural Research (ICAR) Institutions, State Agriculture Universities (SAUs), NGO's etc.

A minimum of 1,400 executives will be trained over the four year life of the project i.e. 2016-20.

**In-Country Programs** – Thirty two 15 days duration training programs will be conducted in India for Executives of 17 Partner Countries.

**Third Country Programs** – Twelve 10 days duration training programs will be conducted in selected African and Asian countries.

The training sessions will be delivered through lectures, group discussions, case studies and field visits. Training is highly participatory, each participant is expected to contribute ideas and take part in group activities. The participants will work in small groups to undertake various tasks allotted to them. Experiential learning methodology is effectively incorporated in the program. Apart from their past experience, the participants would learn through group interaction, from experiences in the field and from interaction with industry experts and the trainers. Before and after tests are conducted to understand the impact of training on the knowledge of executives.

MANAGE is announces Training programs and invites applications time to time for In-country & Third Country Training Program through website, Point of Contacts in Partner Countries. <http://www.manage.gov.in/ftf-itt/ftf-itt.asp>

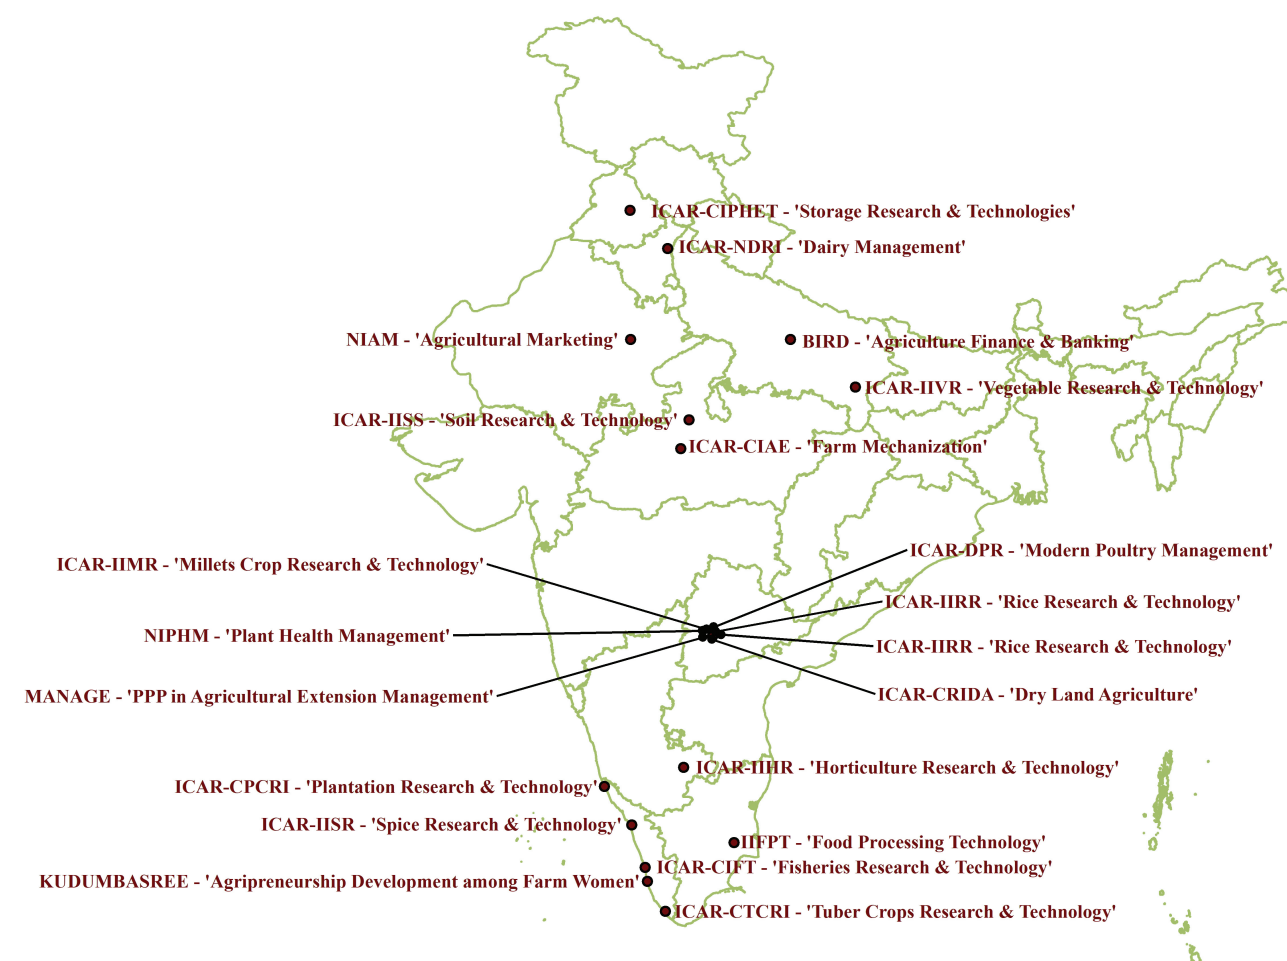

Back at Work Plan is in-built in the training program to ensure the transformation of learning into action in their work place.

MANAGE seek the nominations from partner countries through designated Point of Contacts of Respective Governments. Nominating entities and applicants will be required to submit their respective nominations and applications directly to respective Point of Contact. MANAGE will be responsible for reviewing the applications and selecting the final participants based on suitability to the program.

The program is fully funded by USAID, India and Govt. of India. As part of the program, all expenditure pertaining to tuition, training material, lodging and boarding will be taken care by MANAGE in respective program locations.

MANAGE provide round trip economy class e-ticket for the participants from (the national capital) to Training Institute and for the return journey.

## Overview of 25 FTF ITT Training Programs and Partner Institutes
