MANAGE

The National Institute of Agricultural Extension Management (MANAGE), an autonomous organisation under the Ministry of Agriculture and Farmers Welfare, Government of India is an apex body for Agricultural Extension Management in India. MANAGE offers services like Capacity building, Management Education, Piloting and Implementing Flagship National Schemes, Consultancy, Research, Knowledge Management and Policy Advocacy in Agricultural Extension Management (<https://www.manage.gov.in>).

MANAGE-FISHub

MANAGE-Fisheries Innovation and Startup Hub (MANAGE-FISHub) is a national-level incubation and innovation platform established at the National Institute of Agricultural Extension Management (MANAGE), Hyderabad, in 2025 with the support of the Department of Fisheries (DoF), Ministry of Fisheries, Animal Husbandry and Dairying (MoFAHD), Government of India. MANAGE-FISHub aims to transform India's fisheries and aquaculture sector through innovation, entrepreneurship, and ecosystem development by mentoring and promoting fisheries startups, creating employment and entrepreneurial opportunities aligned with national priorities, and enabling the rapid commercialization of technologies emerging from research, academia, and individual innovators. CAU, Imphal

The Central Agricultural University (CAU), Imphal is a premier agricultural university established on 26 January 1993 under the Central Agricultural University Act, 1992. Headquartered at Iroisemba, Imphal, Manipur, the university serves the agricultural and allied sectors of the North-Eastern region of India. It was established to promote agricultural education, research and extension activities, with a focus on addressing the region's diverse agro-climatic conditions and livelihood needs. The university operates through a network of constituent colleges across several North-Eastern states, offering education and research in agriculture and allied disciplines, including horticulture, veterinary science, fisheries, agricultural engineering and community science.

The College of Fisheries, Lembucherra, is a constituent college of CAU located at Lembucherra in Tripura (west). The college plays an important role in fisheries education, research and extension activities in the North-Eastern region of India. It focuses on developing skilled fisheries professionals and promoting scientific fish production and sustainable aquaculture practices suited to the region's aquatic resources and socio-economic conditions.

Objectives

1

To provide quality education in agriculture and allied sciences, including fisheries, horticulture, veterinary sciences and agricultural engineering.

To advance basic and applied research and develop technologies suited to the needs of the northeastern region.

2

3 To develop and demonstrate sustainable farming systems that improve productivity, profitability and environmental conservation.

To transfer improved agricultural and fisheries technologies to farmers, entrepreneurs and rural communities through training and demonstrations.

4

About the Program

Aqua Udyami is an entrepreneurship-driven programme aimed at empowering fishermen, fisheries youth, and aspiring entrepreneurs with practical knowledge, skills, and hands-on exposure to establish and scale fisheries and aquaculture enterprises. The programme provides a structured platform for interaction with technical experts, successful entrepreneurs, financial institutions, and support agencies, enabling participants to gain real-world insights into enterprise planning, production, value addition, and market linkage.

By strengthening entrepreneurial capabilities and business orientation, Aqua Udyami promotes sustainable livelihoods, income enhancement, and enterprise-led growth in the fisheries sector. The programme nurtures confident, resilient, and market-ready entrepreneurs capable of contributing to sustainable fisheries development and the expansion of India's blue economy.

Who can attend?

Fish Farmers

Aspiring
Aquapreneurs

Fisheries Startups &
Aquapreneurs

Focus areas

Aquaculture

Key Takeaways

Build Networks

Meet individuals who can potentially become business partners, clients, mentors, or collaborators.

Forge New Partnerships

Facilitate collaborations and discover opportunities for joint ventures, partnerships, or projects that align with your objectives.

Gain Visibility

Showcase your products and technologies to a relevant audience, increasing your visibility within the local business community.

Discover New Opportunities

Engage with innovators, experts, and institutions to explore emerging trends and startup opportunities in the fisheries sector.

Learning & Exposure

Gain insights from Fisheries-Startup Stakeholders through Networking, Talks and Discussions
