

MANAGE-FISHub's

Fisheries StartUp and Aquapreneurship Stakeholders Meet

Connect. Collaborate. Catalyse

In Collaboration with

Central Agricultural University (CAU), Imphal

9th November, 2026

College of Fisheries, Lembucherra, Tripura (West)

MANAGE

The National Institute of Agricultural Extension Management (**MANAGE**), an autonomous organisation under the Ministry of Agriculture and Farmers Welfare, Government of India is an apex body for Agricultural Extension Management in India. MANAGE offers services like Capacity Building, Management Education, Piloting and Implementing Flagship National Schemes, Consultancy, Research, Knowledge Management and Policy Advocacy in Agricultural Extension Management (<https://www.manage.gov.in>).

MANAGE-FISHub

MANAGE-Fisheries Innovation and Startup Hub (**MANAGE-FISHub**) is a national-level incubation and innovation platform established at the National Institute of Agricultural Extension Management (MANAGE), Hyderabad, in 2025 with the support of the Department of Fisheries (DoF), Ministry of Fisheries, Animal Husbandry and Dairying (MoFAHD), Government of India. MANAGE-FISHub aims to transform India's fisheries and aquaculture sector through innovation, entrepreneurship, and ecosystem development by mentoring and promoting fisheries startups, creating employment and entrepreneurial opportunities aligned with national priorities, and enabling the rapid commercialization of technologies emerging from research, academia, and individual innovators. (<https://www.manage.gov.in/managefishub>).

CAU, Imphal

The Central Agricultural University (CAU), Imphal is a premier agricultural university established on 26 January 1993 under the Central Agricultural University Act, 1992. Headquartered at Iroisemba, Imphal, Manipur, the university serves the agricultural and allied sectors of the North-Eastern region of India. It was established to promote agricultural education, research and extension activities, with a focus on addressing the region's diverse agro-climatic conditions and livelihood needs. The university operates through a network of constituent colleges across several North-Eastern states, offering education and research in agriculture and allied disciplines, including horticulture, veterinary science, fisheries, agricultural engineering and community science.

The College of Fisheries, Lembucherra, is a constituent college of CAU located at Lembucherra in Tripura (west). The college plays an important role in fisheries education, research and extension activities in the North-Eastern region of India. It focuses on developing skilled fisheries professionals and promoting scientific fish production and sustainable aquaculture practices suited to the region's aquatic resources and socio-economic conditions.

Objectives

- 1 To provide quality education in agriculture and allied sciences, including fisheries, horticulture, veterinary sciences and agricultural engineering.
- 2 To advance basic and applied research and develop technologies suited to the needs of the northeastern region.
- 3 To develop and demonstrate sustainable farming systems that improve productivity, profitability and environmental conservation.
- 4 To transfer improved agricultural and fisheries technologies to farmers, entrepreneurs and rural communities through training and demonstrations.

About the Program

The Fisheries-StartUp & Aquapreneurship Stakeholders Meet aims to bring together all key stakeholders of India's fisheries and aquaculture ecosystem on a single collaborative platform and bridge the information gap, by facilitating a seamless exchange of knowledge, resources, and partnership opportunities among them.

The program aims to strengthen the fisheries entrepreneurship landscape by fostering innovation, collaboration, and value-chain integration. It provides startups with opportunities to showcase innovations, connect with partners, and learn from successful ventures. By facilitating dialogue and partnerships, the program seeks to build an inclusive ecosystem that accelerates sustainable growth, technological adoption, and blue economy development. & Feed Technology

Other Innovations
in Fisheries &
Aquaculture

Key Takeaways

Build Networks

Meet individuals who can potentially become business partners, clients, mentors, or collaborators.

Gain Visibility

Showcase your products and technologies to a relevant audience, increasing your visibility within the local business community.

Learning & Exposure

Gain insights from Fisheries-Startup Stakeholders through Networking, Talks and Discussions

Forge New Partnerships

Facilitate collaborations and discover opportunities for joint ventures, partnerships, or projects that align with your objectives.

Discover New Opportunities

Engage with innovators, experts, and institutions to explore emerging trends and startup opportunities in the fisheries sector.
