Subhash Paleker Natural Farming (SPNF) Master Trainer Farmers Workshop

SPNF master trainer farmers workshop was organized by S. D. Agricultural University at Sardarkrushinagar and was preside over by Hon. Governor of Gujarat Shri Acharya Devvratji in worthy present of ACS, Agriculture Shri Punamchand Parmar. It was participated 5000 farmers of six districts of North Gujarat as well as officials of agriculture, horticulture department of Govt. of Gujarat and university scientists.

On this occasion addition chief secretary spoke that, at present 40 cost is incurred for fertilizer and pesticides which hence the soil is becoming is not seen beneficial and on other hand less productive day by day.

If farmers adopt SPNF, would reduce 40 per cent of cost of production with improvement in soil. He emphasized that in Jivamrut is a solid alternate of Urea. Our master trainers would work as the solders of SPNF. We have trained 1,25,000 farmers by now we will trained another 10 lakh farmers up to 2020 and 2 core farmers till 2022.

Hon. Governor stated that he decided not to take rest till the Gujarat's agriculture became free from poisons by application of SPNF. That would be successful through farmers of Gujarat. He firmly told that. I am farmer first then Governor. He shared his SPNF experience of his own farm with the farmers. He assured success in SPNF & not to be worried about the criticism of SPNF made by others. He also awarded the farmers about ill effects of chemical fertilizer those have made huge damage to agriculture & ecology. He lastly provokes to adopt at least one cow to cultivate 30 acre of land. It leads to Natural Farming and would prevent average farmer from being debater and become happy, healthy and wealthy in near future.
