About the Institute

The National Institute of Agricultural Extension Management (MANAGE), established in 1987, is an apex level Autonomous institute under the Ministry of Agriculture & Farmers Welfare, Government of India. The Institute aims at strengthening the agricultural extension system in the country. The Institute offers training, consultancy, management education, research and policy support in the field of agricultural extension.

MANAGE also offers Educational Programs viz: Post Graduate Diploma in Agri-warehousing Management (PGDAWM), Post Graduate Diploma in Agricultural Extension Management (PGDAEM) and Diploma in Agricultural Extension Services for Input Dealers (DAESI) and to develop agricultural extension personnel into specialists. The Institute also offers a two years regular program called Post-Graduate Diploma in Management (Agri-Business Management).

Post Graduate Diploma in Agri-Warehousing Management (PGDAWM)

The changing agricultural scenario of the country calls for organized agri-warehousing backed by state-of-the-art technology. This, in turn, will give rise to demand for technically qualified manpower to manage different aspects of warehouse operations. Realizing the importance of trained manpower in the sector, MANAGE has launched an educational program of one-year duration namely Post Graduate Diploma in Agri-Warehousing Management (PGDAWM). The course envisages to equip the enrolled candidates with requisite knowledge and skills required for efficient and effective management of agri-warehouses.

Objective

The objective of the Course is to create a pool of warehouse professionals with capacity to manage agri-warehouses efficiently and to expose them to latest developments in agri-warehousing management.

Salient features

PGDAWM is one year course offered online (MOOCs) in user-friendly manner. The content of the program is comprehensive in its coverage with balanced blending of theoretical and practical exposure. Study material consisting of write-ups and videos for each subject covered under the course is made available online along with interaction with industry experts through online platform.

Course Structure and Contents

The program has 32 credits which are offered over two semesters. Each semester will have 16 credits. The course will have nine subjects along with project work. Reading material on each subject covered under the program will be provided to the students. It is mandatory to complete all the nine subjects along with assignments and project work in order to qualify for the award of certificate.
