FIRST-HAND INSIGHTS

Guest lectures are an integral part of the pedagogy of MANAGE. As part of the “SAMANVAY” Guest Lecture Series, notable guest speakers enrich the learning by delivering lectures on program-specific topics. It brings the students face-to-face with well-known names in business, government, academics and distinguished alumni networks from around the world, who share their valuable insights from their diverse experiences about contemporary business issues, the challenges they have faced and how they dealt with them. Guest lecturers are drawn from a variety of backgrounds, and cover a wide range of issues, from general management to core agribusiness, to perception and career development. These sessions serve as an ideal platform for the students to supplement their theoretical knowledge with first-hand perspectives from the stalwarts of the industry and also appreciate the different dimensions of handling modern-day business challenges.
