The excellent response from leading Indian and multinational Agri-Business companies in placement of students as management trainees, and their interest in assigning summer projects to them, fully validates the quality of the program. On successful completion of the program, candidates are awarded the Post Graduate Diploma in Management (Agri-Business Management).

### SUMMER INTERNSHIP

The fourth trimester during the first year, consisting of 8-10 weeks, is fully devoted to industrial exposure to various companies. At the end of the study visit, a report is prepared to analyze and to identify the bottlenecks of development and opportunities for growth.

# PGDM(ABM) RECRUITMENT CALENDAR- 2019-20

# TESTIMONIAL

”

In today's highly volatile and even more uncertain world, it is not just the knowledge and skill set of a manager that's important. Ability to change and adapt to fast changing reality and foresee the likely changes has become much more important than it was earlier. For today's manager, an ear to the ground is as important as an eye on the horizon. Being involved with MANAGE as an alumnus, resource person and a recruiter, I find that the institute's curriculum and the rigor with which it is being implemented, is aptly preparing the budding agri business managers for the challenges waiting outside. Hunger to learn, perform and excel in the right proportions is a common trait I see in all MANAGEITES which will take them a long way. I wish the students the very best for their future.
