

MANAGE Hosts International Conference on 'Food & Nutritional Security through Agriculture Ecosystem'

DECCAN NEWS SERVICE
HYDERABAD

National Institute of Agricultural Extension Management (MANAGE) in collaboration with International Rice Research Institute (IRRI), International Crops Research Institute for the Semi-Arid Tropics (ICRISAT), International Potato Center (CIP), and HarvestPlus inaugurated two days International Conference on "Food & Nutritional Security through Agriculture Ecosystem" on Thursday February 1, 2024. More than 250 delegates representing scientists, extension professionals, research scholars and academia including experts participated in the event. The conference was inaugurated by Dr. P Chandra Shekara, Director General, MANAGE, Dr Victor Afari-Sefa, Deputy Director General, Research, ICRISAT, Dr. Jonna Kane- Potaka, Deputy Director General, IRRI, Dr Samarendu Mohanty, Asia Regional Director, CIP; Dr. Binu Cherian, Country Manager, Harvest Plus and Dr Veenita Kumari, Deputy Director (Gender Studies), MANAGE. During the inaugural address, Dr. P.Chandra Shekara, DG-MANAGE stated that

food and nutritional security are not goals but a necessity. It becomes everyone's responsibility to design and implement policies to ensure food and nutritional security in the world, he said. He mentioned that MANAGE is mainstreaming food and nutritional security initiatives in its agricultural extension programs and schemes like training Input Dealers, Agripreneurs under AC&ABC, RKVY-RAFTAAR, and digital agri-

culture schemes.

Dr. Jonna Kane- Potaka said that we can't work in silos and we need to integrate our specializations to address food and nutritional security. She highlighted the on-going breakthrough research in rice at IRRI and stressed need for greater collaboration to ensure a transformational change at farmers level.

Dr. Binu Cherian shared the importance of biofortified crops and the on-going re-

search at HarvestPlus and stressed need for value chain approach to promote biofortified crops. Dr. Samarendu Mohanty stated that achieving food security is possible only through a multi-disciplinary approach to address issues like climate change, soil health, water management and nutritional security. Dr. Victor Afari-Sefa discussed the imperative of collective action to address food and nutritional security through sustainable food systems and improved seed systems coupled with data-based farming. A Na-

tional Level Women Agripreneurs Exhibition-2024, featuring 25 women Agripreneurs from 10 states across country was also organised. The exhibition showcased different value added products of millets, honey, coconut, mushroom, fruits and spices. As part of the conference more than 90 research papers will be presented under seven important themes including keynote papers by eminent speakers. A compendium of papers presented in the conference was released

FM's GDP Budget to Focus on Women, Poor, Youth, Farmers

NEW DELHI: With no "big-bang" announcements ahead of the Lok Sabha elections, the Narendra Modi government focused Thursday mostly on women, the poor, youth and farmers in its interim Budget. While keeping the slabs unchanged for all direct, indirect and corporate taxes for the next financial year and disappointing the salaried and middle class, it also offered a lucrative and affordable housing plan for them in its interim Budget. Also Read - Interim Budget 2024: Tech R&D Gets Rs 1 lakh Cr Corpus Advertisement Besides, the government also announced several measures to enhance the skill, capacity and regulatory framework with a special focus on the massive infrastructure spend to boost the sector and generate employment in the country for the next financial year. The government also hinted that there will be unprecedented development in the next five years. While tabling a vote on account, or an interim Budget, for 2024-25 in Parliament, Sitharaman announced Rs 11.11 lakh crore spending on infrastructure and vowed to continue reforms as she resisted resorting to populist measures in the Narendra Modi government's last Budget before the general election, instead choosing to stay on the path of cutting the deficit while bolstering measures for focus groups. "No changes

in income-tax rates for individuals and corporates, as well as import duty, but offered amnesty for disputed income tax demands of the period prior to 2014-15 as a relief to small taxpayers," she proposed in her speech. Also Read - Budget Hits Sweet Spot With Viksit Bharat: PM Modi Briefing the media. Sitharaman said this interim Budget was presented just before just the elections and called it as GDP — governance, development and performance. "G is for governance, where the Budget speaks from a position where we've delivered on development. We managed the economy with correct intentions, correct policies and correct decisions, so it's governance with care. D stands for people living better, earning better and having high aspirations for the future, and if I move to the 'P' the performance three consecutive years of 7 per cent growth faster-growing economy in G20 all parts of the country participating in the growth" she told reporters. Also Read - Revant to Implement Two More Guarantees, To Take Decision by Budget in her close to an hour-long Budget speech in the Lok Sabha, she also exuded confidence in the Indian economy and detailed the last 10 years of achievements of the government, saying that there would be unprecedented development in the next five years. Giving a sneak preview of what will be the Narendra Modi government's priority in a third term, if re-elected, she said economic policies that foster and sustain growth, facilitate inclusive development and contribute to generation of resources to power investments will be adopted towards making India a developed country by 2047. Also Read - Interim Budget 2024: Union Budget disappoints TS, likely to go for interim budget for 2024-25 Sitharaman also announced that the government will be launching a scheme to help the deserving sections of the middle class, as quoted by Modi 'living in rented houses, slums or chawls or unauthorised colonies', which will help them to buy or build their own houses. Among several announcements for the youth, poor, women and farmers, the minister also highlighted that the healthcare cover under Ayushman Bharat will be extended to all Asha and Anganwadi workers and helpers. Sitharaman's Budget proposes to cut food, fertiliser and fuel subsidies by 8 per cent in 2024-25 over last year while keeping the allocation for the rural employment scheme MGNREGA unchanged. Spending on infrastructure such as roads, ports and airports has been raised by 11 per cent to Rs 11.1 lakh crore in a bid to sustain the current world-record beating economic growth and create more jobs. The government will also provide Rs 1.3 lakh crore long-term loans to states to spend on infrastructure. Besides, the government will build two crore affordable houses in the next five years and will launch a scheme for housing for the middle class.

Budget 2024: Post Budget Reactions from Tech Experts

Today, on February 1, Finance Minister Nirmala Sitharaman presented the Interim Budget 2024 in Parliament. Notably, this interim budget precedes a comprehensive budget set to be revealed after the conclusion of general elections by the new government. The Finance Minister unveiled a series of noteworthy technological reforms, delivering the budget in a paperless format using a digital tablet in a red 'bahri khata' adorned with the national emblem. Despite heightened expectations from industry experts regarding artificial intelligence (AI) announcements, none materialized. Explore the views of tech experts from top technology companies. Also Read - 'Directionless' budget disappointing for the common people: PLOTADVERTISEM Paltavi Singh Marwah, Senior VP of SPPL Super Plastics Pvt. Ltd (SPPL) applauded the ease of securing a 34cr loan for entrepreneurs. The 43% women enrollment in STEM courses and Allocing 1/3 seats in government reflects a commitment to equal representation. Women setting up their businesses will lead to job creation for the same gender and recent studies have shown that empowering women economically leads to increased GDP and poverty reduction, benefitting families and communities. Overcoming various challenges and barriers as a woman entrepreneur in India is not an easy feat and with encouragement from the government, this will provide a boost, especially to those from economically weaker backgrounds. Increased woman entrepreneurship is also a step towards global collaborations and will provide India with an additional platform to expand networks and access global markets. Also Read - Total outlay in Interim Budget hiked by Rs 2.76 lakh crore ADVERTISEM Srinidya Kannan, Founder and CEO Aavaali Solutions "The Interim Union Budget India 2024 unwraps a portfolio of measures that exude optimism for the future. The projected path to economic resurgence, coupled with a commitment to inclusive growth and innovation, sets the stage for India to continue its journey as a beacon of progress in the global arena. Also Read - Haven't Witnessed Such a Poor Budget: DCM D K Shivakumar ADVERTISEM Two noteworthy

announcements, brimming with potential for transformative impact: the continued robust expansion of the Skill India Mission and a laudable push toward enhancing female enrollment in higher education. The former, an ambitious endeavour to upskill the youth workforce, has already begun painting a success story of empowerment and employability. Meanwhile, the latter underpins a strategic move toward inclusivity and gender parity, recognizing that the true strength of the nation lies in equipping all its citizens to contribute to the economic and social fabric with equal fervour. Also Read - Budget 2024: Reactions from education experts The allocation of interest-free loans to stimulate innovation is not just a fiscal transaction but an investment in the unbridled ingenuity of Indian minds. By easing the financial burden on entrepreneurs and start-ups, the government fosters an environment where bold, forward-thinking ventures can flourish without the stranglehold of interest payments. This will ultimately bolster India's reputation as a hub for innovation and drive the indigenous tech ecosystem forward. With an already burgeoning talent pool, focused investment in innovations, including in the technology sector, will likely yield significant returns, catalyzing the development and adoption of innovative solutions across industries. Given the rising complexity of working with banks, it will be interesting to see how these are being implemented, with a focus on ease of adoption." Pankaj Kotecha, MD & Chairman Ishan Technologies "While the Interim Budget provides a wide overview of FY24-25, we applaud the government's emphasis on empowering the youth through upskilling and reskilling initiatives. The establishment of additional IITs, IITs, and IIMs is a promising stride toward creating a skilled talent pool in the IT sector, addressing a critical need in the industry especially in the era of Artificial Intelligence. As an MSME in the IT sector, Ishan Technologies appreciates the government's recognition of the importance of timely finances, relevant technologies, and training for the growth and global competitiveness of MSMEs. The orientation of the regulatory environment to facilitate the growth of MSMEs is a crucial element of the policy mix, and we look forward to the positive impact it will have on the MSME ecosystem. As we look forward to the budget announcement in July, we anticipate a focused commitment to bolstering cybersecurity measures. We believe that additional allocation and specific policies in this crucial area will play a pivotal role in fortifying India's digital infrastructure and enhancing overall cybersecurity, aligning with the nation's vision for a secure and resilient digital future." Lt. Gen. Dr. S.P. Kochhar, Director General, Cellular Operators Association of India (COAI) "The Interim Budget presented by the Finance Minister today reemphasized the government's economic policies and the commitment to sustained growth, improving productivity and creating opportunities with a focus on skilling and reskilling. In a significant gain for the telecom sector just before the interim budget, the current customs duty exemption granted to vessels engaged in laying submarine cables in India - which lapses on 31st March 2024 - was extended up to 30th September 2024. Telecom companies depend heavily on submarine cables for the high-speed transfer of data around the globe and this step will help in following the compliances. The announcement of a corpus of 71 lakh crore for the technology sector is a positive measure as access to capital is a critical factor to support innovation and growth. The long-term, interest-free or low interest rate loans and focus on deep tech will further encourage the private sector to scale up research and innovation. We are hopeful that in the post-election full budget, the industry's suggestions to reduce regulatory levies like License Fee, deferring USOF contribution till the existing funds are exhausted, exemption of Basic Customs Duty (BCD) on telecom equipment, waiving of GST on regulatory payments and refund of ITC, among others, will be considered and addressed by the Government during the course of the year." Rishi Agrawal, CEO and Co-Founder, Ramiasse RegTech "A good interim budget which presents a disciplined approach in government spending without compromising capital investment in core sectors.

MANAGE Hosts International Conference on 'Food & Nutritional Security through Agriculture Ecosystem'

National Institute of Agricultural Extension Management (MANAGE) in collaboration with International Rice Research Institute (IRRI), International Crops Research Institute for the Semi-Arid Tropics (ICRISAT), International Potato Center (CIP), and HarvestPlus inaugurated two days International Conference on "Food & Nutritional Security through Agriculture Ecosystem" on February 1, 2024. भोजन व पोषण सुरक्षा से जुड़ा लक्ष्य नहीं, पर आवश्यकता : डा. पी. चंद्रशेखर

हैदराबाद, 1 फरवरी (स्वतंत्र वार्ता)। मैनेज महानिदेशक डा. पी. चंद्रशेखर ने कहा कि, भोजन व पोषण सुरक्षा से जुड़ा लक्ष्य नहीं पर आवश्यकता है। इस मामले में ग्रेटर हैदराबाद में कृषि पारिस्थितिकी तंत्र के माध्यम से मैनेज (राष्ट्रीय कृषि विस्तार प्रबंधन संस्थान) ने 'खाद्य एवं पोषण सुरक्षा' मामले पर दो दिवसीय अंतरराष्ट्रीय सम्मेलन की मेजबानी की।

इस संदर्भ में, मैनेज ने अंतरराष्ट्रीय चावल अनुसंधान

सीसीआई

को बढ़े खाते में डालने का है। वित्तीय वर्ष 1996 से 2015 तक यह प्रक्रिया लगभग 1 करोड़ करदाताओं के लिए सुनिश्चित करेगी। चार्टर्ड अकाउंटेंट और एफटीसीसीआई की जीएसटी और सीमा शुल्क समिति के अध्यक्ष इश्राद ने कहा कि वित्त वर्ष 2025 के लिए राजकोषीय घाटे को चालू वित्त वर्ष में 5.8% के मुकाबले सकल घरेलू उत्पाद के 5.1% पर रखना एक अच्छी बात है और स्वागत योग्य है। उन्होंने कहा, बांड बाजार पहले ही इस पर सकारात्मक प्रतिक्रिया दे चुका है। राजकोषीय घाटे के लिए सकल घरेलू उत्पाद का 5.17 लक्ष्य रखना स्वागत योग्य है। पूंजी बाजार और निवेशक संरक्षण समिति के अध्यक्ष प्रेम चंद कांकरिया ने कहा कि अंतरिम बजट लोकलुभावन योजनाओं पर चुप है। ऐसी योजनाएं हमेशा अर्थव्यवस्था पर बोझ डालती हैं।

संस्थान, अर्ध-शुष्क ट्रॉपिक्स के प्रति अंतरराष्ट्रीय फसल अनुसंधान संस्थान, इंटरनेशनल पोटेटो सेंटर और हार्वेस्ट प्लस के सहयोग से कृषि पारिस्थितिकी तंत्र के माध्यम से पोषण सुरक्षा विषय पर दो दिवसीय अंतरराष्ट्रीय सम्मेलन की मेजबानी की तथा मैनेज के नेतृत्व में गुरुवार 1 फरवरी 2024 को तत्संबंधित दो दिवसीय अंतरराष्ट्रीय सम्मेलन का उद्घाटन हुआ। इस दो दिवसीय सम्मेलन का उद्घाटन मैनेज महानिदेशक डा. पी. चंद्रशेखर; आईसीआरआईएसएटी-इंफ्रीसैट उप महानिदेशक-अनुसंधान डा. विक्टर अफ़ारी-सेफ़ा, आईआरआरआई पोटाका उप महा निदेशक डा. जोना केन, एशिया क्षेत्रीय निदेशक सीआईपी डा समरेंदु मोहंती, कंट्री मैनेजर हार्वेस्ट प्लस डा. बीनू चेरियन और मैनेज उप निदेशक (लिंग अध्ययन) डा. वीनीता कुमारी ने किया।

उद्घाटन भाषण के दौरान, महानिदेशक-मैनेज डा. पी. चंद्रशेखर, ने कहा कि भोजन और पोषण सुरक्षा से संबंधित

लक्ष्य नहीं बल्कि यह आवश्यकता है। उन्होंने कहा कि, विश्व में खाद्य और पोषण सुरक्षा सुनिश्चित करने के लिए इसे डिजाइन करना और नीतियों को लागू करना हर किसी की जिम्मेदारी बन जाती है। साथ ही उन्होंने यह भी उल्लेख किया कि मैनेज अपने कृषि विस्तार कार्यक्रमों में खाद्य और पोषण सुरक्षा पहलुओं में एसी एंड एबीसी, आरकेवीवाई-आरएएफटीएआर और डिजिटल कृषि योजनाओं के तहत इनपुट डीलरों, कृषि उद्यमियों को प्रशिक्षण देने जैसी योजनाओं की मुख्यधारा में लाना है।

इस अवसर पर डा. जोना केन- पोटाका, डा बीनू चेरियन, डा समरेंदु मोहंती ने अपने विचार प्रकट किए। इस अवसर पर राष्ट्रीय स्तर की महिला कृषि उद्यमियों की प्रदर्शनी-2024 आयोजित की गयी जिसमें देश के 10 राज्यों से 25 महिला कृषिउद्यमी शामिल हुईं। इस अंतरराष्ट्रीय सम्मेलन कार्यक्रम में ढाई सौ से अधिक गणमान्य प्रतिनिधियों ने भाग लिया।
